Society of Exploration Geophysicists
The international society of applied geophysics

Benefits Guide

SEG Membership

30 000-plus members in
more than 130 countries.....

join your colleagues and
become a member today!

www.seg.org

The Society of Exploration Geophysicists...
Researching. Educating. Collaborating. Innovating.

Who are we:

Founded in 1930, the SEG is a global society reaching out to geophysicists in a broad range of industries, promoting education and scientific discovery to continue the advancement of geophysics. Become part of our collective thriving community as we promote the science of geophysics today, accelerate the pace of innovation for tomorrow, and inspire future geoscientists worldwide.

Key Membership Benefits:

■ SEG ONLINE – Your virtual SEG connection gives you

- + Instant free access to the SEG Digital Library which includes:
 - GEOPHYSICS, 1936 to Present
 - THE LEADING EDGE, 1982 to Present
 - SEG Technical Program *Expanded Abstracts*
 - Robert E. Sheriff's *Encyclopedic Dictionary of Applied Geophysics*, fourth edition

+ Presentation library

+ Meetings calendar

- + MySEG – online messaging and collaboration tool enables committees and other member groups with common interests to share ideas. It also includes a robust member search engine.

■ REFERENCE PUBLICATION DISCOUNTS

Members may purchase SEG publications, DVDs and CDs that are on average 35% off the list price.

+ THE LEADING EDGE print edition mailed to most members

+ GEOPHYSICS in print mailed to members at a discounted rate

- + SEG membership directory on a CD that also includes the previous year's articles from GEOPHYSICS and TLE

■ ANNUAL MEETING DISCOUNTS

Members receive significant discounts on registration fees for the SEG Annual Meeting.

■ PROFESSIONAL DEVELOPMENT DISCOUNTS

Essential training in geophysics and career-enhancing skills are offered at special membership prices.

Fast Facts

- Founded in 1930
- More than 30 000 members
- In 130 different countries
- Host the largest geophysical convention worldwide
- Over 700 technical papers presented every year

■ NETWORKING

Worldwide opportunities exist to network with other geoscience professionals and their associates in academia and industry.

■ EMPLOYMENT

Obtain assistance for your career transition through SEG Employment Referral.

- + **Job seekers** may post résumés on SEG's Web site and in a specified area at the Annual Meeting.

- + **Employers** can use the same venues to post job opportunities.

■ RESEARCH AND INNOVATION

Your membership connects you to exciting programs and research opportunities that are accelerating the pace of innovation such as the SEG Advanced Modeling Project (SEAM), the Summer Research Workshop and the SEG Research Committee.

Joining is Easy!

- Click at <http://seg.org/membership>
E-mail us at members@seg.org
Call +1.918.497.5581, fax +1.918.497.5565

SEG offers multiple membership types including active, associate, student and global, all of which include access to publications and discounts on a variety of services.

Join online:

<http://seg.org/membership>

Online/Digital Resources

Members only access to the SEG Digital Library which includes:

- GEOPHYSICS
- THE LEADING EDGE
- Expanded Abstracts
- Dictionary
- MySEG – online messaging and collaboration tool also including a robust member search engine
- Online discounts and savings on a variety of SEG products and services
- SEG Online – This virtual SEG connection gives you the ability to:
 - + search for articles and publications from SEG and other participating societies through the Digital Library
 - + read and download technical articles
 - + read *TLE* and *GEOPHYSICS*
 - + register for meetings and courses
 - + submit papers
 - + view technical presentations
 - + search for colleagues in the membership directory
 - + participate in online groups and surveys
 - + buy discounted publications, CDs, and DVDs at the SEG Book Mart
 - + update your membership information and pay dues

Publication Resources

- **THE LEADING EDGE – FREE online access to all members and FREE print to most members**

Published monthly, this gateway publication introduces new geophysical theory, instrumentation, and other topics in a wide array of geoscience disciplines. Most material is presented in a manner that minimizes theory and emphasizes practical applications.

[Link http://seg.org/tle](http://seg.org/tle)

- **GEOPHYSICS – FREE online access to all members**

Published bimonthly, peer-reviewed journal contains articles covering the entire spectrum of applied geophysics. Published since 1936, *GEOPHYSICS* provides theoretical and mathematical tools needed to reproduce depicted work. The entire archive of technical articles is available online (print subscription available at member discount).

[Link http://seg.org/geophysics](http://seg.org/geophysics)

- **REFERENCE PUBLICATIONS – average of 35% off for members**

SEG publishes books, CDs, DVDs, videos, and slide sets covering the entire spectrum of applied geophysics topics.

[Link http://seg.org/bookmart](http://seg.org/bookmart)

- **YEARBOOK - exclusively for members**

This CD contains an alphabetical and geographic directory of all members. It includes lists of the Society's committees, meetings, educational opportunities, awards, publications, historical records, and governance documents. Also includes the previous year's journal articles. Distributed annually in the Spring. The Yearbook can be purchased in print (without Journal articles).

Meetings

- **ANNUAL MEETING**

SEG's Annual Meeting and International Exposition is the world's premier geophysical event, featuring more than 700 technical paper presentations and an exposition showcasing the latest in geophysical products and services. It regularly brings together more than 8,000 exploration industry professionals from around the globe.

[Link http://seg.org/meetings](http://seg.org/meetings)

- **DEVELOPMENT AND PRODUCTION FORUM**

This annual event brings new and emerging development and production technologies into open discussion, with the dual purpose of education and exchange of ideas.

[Link http://seg.org/meetings/dpforum/](http://seg.org/meetings/dpforum/)

- **SUMMER RESEARCH WORKSHOP**

Held annually, this workshop examines, clarifies, and promotes research in a wide range of applied geophysics topics.

[Link http://seg.org/meetings/srw/](http://seg.org/meetings/srw/)

- **INTERNATIONAL MEETINGS**

More than 60 percent of SEG's members live outside the United States, and one of the ways SEG serves them is through a growing international meetings program.

[Link http://seg.org/meetings/intl/](http://seg.org/meetings/intl/)

Professional Development Resources

SEG offers many professional development opportunities in a variety of settings.

- **CONTINUING EDUCATION COURSES**

SEG offers public and contract continuing education courses on many aspects of applied geophysics. Registration fees discounted for SEG members.

[Link http://seg.org/ce](http://seg.org/ce)

- **SEG/EAGE DISTINGUISHED INSTRUCTOR SHORT COURSE**

Each year a new instructor of renown is selected to teach worldwide a course of broad relevance. Registration fees for members are minimal.

[Link http://seg.org/ce](http://seg.org/ce)

- **DISTINGUISHED LECTURES**

SEG-sponsored Distinguished Lectures on geophysical topics of high interest are presented in dozens of locales throughout the world.

[Link http://seg.org/ce](http://seg.org/ce)

- **REGIONAL LECTURES**

This new program brings geophysical topics of relevance to geophysicists in local regions around the world.

[Link http://ce.seg.org/rl/](http://ce.seg.org/rl/)

- **ANNUAL MEETING**

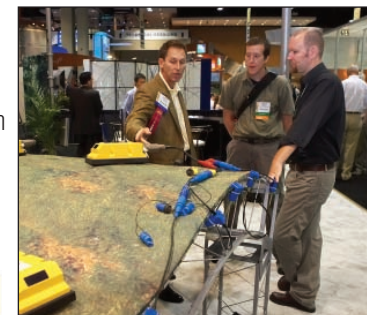

The SEG Annual Meeting and International Exposition includes more than 700 technical paper presentations covering the latest developments in the geosciences.

[Link http://seg.org/meeting](http://seg.org/meeting)

Research and Innovation

Working toward the goal of accelerating the pace of innovation, SEG has begun ambitious, new programs such as SEG Advanced Modeling Project (SEAM) and Geoscientists without Borders.

SEAM – A cooperative industry effort advancing the science and technology of applied geophysics. More than twenty industry leaders and SEG are dedicated to leading-edge geophysical numerical modeling.

The Foundation supports the profession of geophysics by providing program support to SEG and awards to individuals and institutions. High priority programs include the SEG/EAGE DISC, Projects of Merit funding, various student programs, SEG Online, Education, and Geoscientists without Borders. Become part of the Foundation's mission by joining the prestigious Doodlebugger Society at <http://seg.org/foundation>.

Student Resources

SEG offers Student Members all member benefits plus:

- free quarterly subscription to the student e-newsletter, *the Anomaly*
 - scholarship and travel grant opportunities
 - increased discounts on Professional Development courses, workshops, publications, and SEG Annual Meeting registration
 - Student Sections may be available at your university. Opportunities to participate in the Student Leadership Symposium, Student Education Program and SEG Challenge Bowl.
- [Link http://seg.org/students](http://seg.org/students)
- through association with SEG members you will enjoy the benefit of developing professional contacts and industry ties and guidance in career planning/development
