

Abstract Submission Deadline: 14 January at 5 p.m. U.S. Central Standard Time

## OFFICIAL ABSTRACT KIT

CPS/SEG Beijing 2009 International Geophysical Conference & Exposition

Beijing, China

24-27 April 2009

### Changes to be aware of:

- A reference list will NOT be included at the end of the abstract and should be prepared separately.

Your Abstract Kit contains the following items:

1. Criteria for Abstract Acceptance
2. Online Review Form
3. Presentation Styles
4. Instructions for Typing Abstracts
5. Instructions to Submit Online
6. Making PDF Files Using LaTeX
7. Primary Emphasis Category List
8. Keyword Table
9. Submission Checklist
10. Abstract Information Form

There are two methods of submitting your abstracts for the 2009 CPS/SEG Beijing Conference:

#### **1. Abstract Submission Online**

You may submit online using SEG's program for online submissions at <http://abstracts.seg.org/bc09>. The online program will **open on 3 December** for submissions. We recommend that you **do not wait until the last week** to submit an abstract because you may encounter problems that take time to fix, and you risk missing the deadline. Using the Society of Exploration Geophysicists' online submission program, authors with Internet access will be able to open their browser windows, fill out the forms, and submit their abstracts for review (**There is a 5 MB file size limit per uploaded abstract.**) The process is quick and easy. Please read on for further information. Abstracts submitted electronically must be received by **5 p.m. U.S. Central Standard Time on 14 January 2008**.

#### **2. Abstract Submission by Mail**

Authors may prepare their abstracts according to the instructions included in this kit. All abstracts must be on U.S. letter-size paper (8.5" wide x 11" high). The abstract information form included at the end of this document must be completed and sent with the abstract to the SEG Business Office via post or express delivery. Abstract submissions sent by mail must be **received** in the SEG Business Office **on or before 14 January 2009**.

#### **Questions?**

Contact the Technical Program Coordinator in the SEG Business Office by e-mail [techprog@seg.org](mailto:techprog@seg.org), telephone +1.918.497.5500, or fax +1.918.497.5557.

## Criteria for Abstract Acceptance

Abstracts submitted that are not written following the specifications laid out in the Official Abstract Kit will be rejected. The acceptance of your abstract by the 2009 CPS/SEG Beijing Technical Program Committee is based on your submitted abstract and the appropriateness of the abstract in the context of the overall Technical Program. All abstracts must be complete and contain information approved for technical references. Each abstract will have up to two reviewers. The Technical Program Committee will be responsible for selecting and organizing the abstracts into cohesive sessions.

### *Technical Content*

A good abstract presents technically correct ideas with a fresh and enlightening perspective. The discussion is pertinent and well focused on the topic and is the appropriate length. Definitive conclusions are made and supported by data with appropriate figures and cogent, convincing arguments. If the abstract is part of an ongoing study, it has reached a significant milestone with specific conclusions supported by data presented in figures.

### *Coherency, Style, and Grammar*

Abstracts must be written in English. A well-written abstract is readily understandable, even if it has been translated. SEG will publish the abstract exactly as it is received. Please proofread your abstract carefully because neither the Technical Program Committee nor the SEG Business Office staff will make any changes or grammatical corrections. Grammatical and typographical errors reflect on the entire Society and will not be acceptable in the abstracts. **You will not be given the opportunity to resubmit a new version of your abstract after it has been submitted. NO EXCEPTIONS!!**

### *Format*

Authors shall have followed the guidelines (see Instructions for Typing Abstracts) and submitted abstracts with the appropriate forms. The abstract must be of sufficient length to cover the topic and allow reviewers to judge its quality, but **must not exceed four pages and should include no more than 8 figures (including graphics) or 5MB file size**. REMEMBER: **A reference list should NOT be included at the end of the expanded abstract and should be prepared separately.**

### *Commercialism*

Commercial reference may occur only once and then only to identify that certain products or services were used to incorporate the method being presented. The abstract shall contain no other reference to proprietary products, company names, or trademarks. Repeated references to products are cause for rejection.

### *Novelty*

As a part of your abstract submission you will be asked whether your paper has previously been presented at another conference, or whether the paper has been presented previously with only small changes. While this is not necessarily a cause for rejection, the technical program committee would like to encourage submission of new ideas and technology.

## Online Review Form

The information below is found in the online form reviewers will fill out in regard to each abstract. Up to two reviews will be performed on each abstract. The selections below each heading (Commercialism, Coherency, etc.) are the options reviewers are given in that category, along with the corresponding weights.

<b>Commercialism</b>	<b>Weight (Score)</b>
None	0
Some, but tasteful	-2
Blatant	-5

<b>Coherency</b>	<b>Weight (Score)</b>
Written well	2
Muddled but understandable	1
Struggle to understand	-1
Incomprehensible	-2

<b>Illustrations</b>	<b>Weight (Score)</b>
Clear and insightful	2
Average quality	1
Adequate, but could be better	0
Poor illustrations/hard to understand	-1
Lacks needed figures	-2

<b>Conclusions</b>	<b>Weight (Score)</b>
Definite conclusions with data	3
Ongoing study with conclusions	2
Tentative conclusions	1
Not supported by data	-1
No conclusions	-2

<b>Relevance</b>	<b>Weight (Score)</b>
Suitable for any audience	1
Restricted audience	0
Of little interest to any SEG member	-1

<b>Technical Content</b>	<b>Weight (Score)</b>
Innovative/enlightening	3
Technically solid, extends previous work	2
Technically OK, but not innovative	1
Lacking technical content	-1
Not supported by known scientific methods	-2

## Presentation Styles

You are required to select the presentation style best suited for your abstract during submission. The presentation style you request is the only style for which your abstract will be considered. Please review the styles available and select the one that will best represent your abstract.

### Poster Presentation

Poster presentations are best suited for abstracts that contain detailed mathematics, large scale plots, or frequent correlation of several displays. They are also most appropriate for abstracts that are targeted to a focused audience or present difficult concepts that may require more than 20 minutes to develop. Poster presentations offer a unique opportunity for one-on-one communication and interaction between the presenter and the audience.

### Oral Presentations

Oral presentations are best suited for abstracts where a specific and significant milestone has been reached, where the work and results can be demonstrated with clear data examples in the 20-minute time frame of the talk. Oral presentations allow advancing results and view to large audiences.

### Either-Poster or Oral

This is a special category for abstracts that are appropriate for presentation as either a poster or an oral presentation. Accepted abstracts in this category will be placed by the Technical Program Committee in the most appropriate session.

### Either-Poster Preferred

If you believe the abstract is appropriate for either (poster or oral), but have a preference for poster, please select Either-Poster Preferred.

### Either-Oral Preferred

If you believe the abstract is appropriate for either (poster or oral), but you have a preference for oral, please select Either-Oral Preferred.

## Instructions for Typing Abstracts

SEG staff will not edit or retype the copy before publishing. Abstracts that do not comply with the specifications given may be rejected. A sample of an abstract that has been formatted correctly is available online. **You will not be given the opportunity to resubmit a new version of your abstract after it has been submitted. NO EXCEPTIONS!!**

A reference list should NOT be included at the end of the expanded abstract and should be prepared separately and ready to enter during submission in the online form. References should be formatted according to SEG standards. SEG standards are available online at <http://mc.manuscriptcentral.com/geophysics>.

Templates for certain software programs are available. To obtain a template, visit <http://meeting.seg.org/techprog>.

### *Typographical Instructions*

- ◆ All abstracts must be written in English and formatted to fit an 8.5" wide x 11" high page (U.S. letter-size paper).
- ◆ Abstracts are limited to four pages, should include no more than 8 figures, and must be single-spaced.
- ◆ Preferred font is 9-point, normal weight, Times New Roman or similar style.
- ◆ Fonts used in equations must be fully licensed and embeddable fonts. Be certain that the font size in figures is legible and can be easily read.
- ◆ Margins must be set as follows:

	Page 1	Pages 2, 3, and 4
Top	1.5 inch (39 mm)	1.0 inch (26 mm)
Bottom	1.5 inch (39 mm)	1.5 inch (39 mm)
Left	1.0 inch (26 mm)	1.0 inch (26 mm)
Right	1.0 inch (26 mm)	1.0 inch (26 mm)

- ◆ Text must be justified on both the right and left sides. Authors may use one, two, or three columns of type per page and can change the number of columns within an abstract to accommodate illustrations. Your illustrations can be in color or black and white.
- ◆ The first page begins with the title of the abstract set in 11-point bold type, aligned on the left margin. Use lowercase for all words in the title except for the first word and proper nouns. The title should not exceed 235 characters. **No Greek alphabet characters are to be used in titles.**
- ◆ On the line immediately after the title of the abstract, enter the author name and affiliation line, which is the name and company name of each author in 10-point italic type, also aligned on the left margin. **Do not include cities and countries.** Place an asterisk (\*) next to the name of the person presenting the abstract. Remember: The company name for each author should be listed as the company the author was employed with at the time the research was completed (e.g., Joe Smith\* and Jill Brown, Baxter Research).
- ◆ Enter two lines of space (two returns) between the last line of the author name and affiliation line and the first line of your abstract. Category headings (i.e., Summary) should be 9-point bold type, left alignment only. Separate the category headings from the rest of the text with one line of space (one return) before and one line of space after the heading.
- ◆ Paragraphs should not be indented; instead, separate paragraphs with one line of space (one return).
- ◆ Pages 2, 3, and 4 must contain a shortened version (not to exceed 40 characters) of the abstract title at the top of each page in 10-point bold type, aligned in the center of the abstract. There should be one line of space (one return) between the shortened title and the text of the abstract.
- ◆ Organization of the abstract's content should closely follow this scheme:
  1. Summary (Maximum of 200 words)
  2. Introduction
  3. Theory and/or Method
  4. Examples (optional)
  5. Conclusions
  6. Acknowledgments (optional)

## Instructions to Submit Online

Deadline: All abstracts must be received by the SEG Business Office no later than 5 p.m. U.S. Standard Daylight Time, 14 January 2008 for consideration.

1. Prepare your computer. Your Internet browser must be one of the following:
  - ◆ Netscape version 6 or greater
  - ◆ Microsoft Internet Explorer version 5.5 or greater
  - ◆ Firefox 1.5 or greater
2. Before you begin the electronic submission process, gather all necessary information. You may use the abstract information form to guide you in preparing your submission information. This information should include the following:
  - ◆ **Primary emphasis category**—Select one from the list provided in this kit.
  - ◆ **Keywords**—For indexing reasons, select 5 from the list included in this kit.
  - ◆ **Presentation Style**—Oral, poster, etc.
  - ◆ **About Presentation**—Previously presented at another conference, etc?
  - ◆ **Primary author information**—Include e-mail address, company name, full mailing address, phone number, SEG member number. A valid e-mail address is required. If you are a student please mark “yes” in the student box in order to be considered for the student paper awards.
  - ◆ **Primary contact information**—Include email address, company name, full mailing address, phone number, SEG member number. This is the person who will receive communication regarding this abstract. *The primary contact MUST be available by e-mail.* The primary contact and the primary author may be the same person.
    - If the primary contact does not have a valid e-mail address, you can obtain free e-mail\* from a number of sources. Some possibilities are: Hotmail (<http://www.hotmail.com>), limited to 250 MB of storage space; Mail.com (<http://www.mail.com>); Yahoo (<http://www.mail.yahoo.com>) and Netscape Web Mail (<http://mail.netscape.com>).  
\*Note that you NEVER need to provide your credit card information when signing up for free e-mail.
  - ◆ **Speaker information**—Include e-mail address, company name, full mailing address, phone number, SEG member number. A valid e-mail address is required.
  - ◆ **References**—Do not forget that the reference list should not be included at the end of the expanded abstract and should be prepared separately and ready to enter in the online form.
  - ◆ **Official shipping label**—Upon acceptance, this is the label that will be used to ship necessary information regarding your presentation to you. Please complete this section as you would if you were addressing an envelope to yourself.
  - ◆ **Intended Audience Selection**
  - ◆ **Abstract**—The only file type that SEG will accept is PDF (.pdf). No security restrictions or links may be included in the files. Abstracts that are not in the prescribed format, with correct file name extensions, will not be accepted for review. Adobe has a free trial offer to create 5 .pdf files for free. Go to <http://createpdf.adobe.com/> to learn more about this offer and take advantage of this opportunity. For information regarding LaTeX, please see information on the following page. Fonts must be embedded in your abstract. There is a 5 MB size limit on each uploaded abstract. Please have your abstract ready before you begin the online submission process.

Please see the abstract information form at the end of this document for further details about information supplied during the submission process.

3. If you are now ready to submit online:
  - ◆ Using your Web browser, go to <http://abstracts.seg.org/bc09> for the online submission form. Fields that are marked with an asterisk (\*) are required fields. You will not be able to submit the form if these fields are not completed.
  - ◆ If you cannot view Adobe Acrobat Portable Document Format (.pdf), you will need to download Adobe Acrobat Reader version 6.0 or higher to view your abstract online. You can get Adobe Acrobat Reader free by going to <http://www.adobe.com/products/acrobat/readstep2.html> and follow the download instructions for your computer.
  - ◆ If you have problems submitting or uploading your abstract, DO NOT resubmit the entire form. Simply contact the Technical Program Coordinator at [techprog@seg.org](mailto:techprog@seg.org) or +1.918.497.5500 for assistance.

## Making PDF Files Using LaTeX

LaTeX templates are available at <http://meeting.seg.org/techprog>.

When using LaTeX, before submission, please make sure you are using embedded Type 1 fonts. You may do so by opening your PDF document with Acrobat Reader, click on File -> Document Properties... -> Font. You should see lines that look like:

CMR17 Type 1 Built-in Embedded Subset Type 1

If this is not the case, you need to update your LaTeX installation. A few LaTeX distributors are:

teTeX (Unix) <http://www.tug.org/tetex/>

MiKTeX (Windows) <http://www.miktex.org/>

TeX Live (both Unix and Windows) <http://www.tug.org/texlive/>

To Download the SEGTeX package visit:

SEGTeX <http://segtext.sourceforge.net>

## Primary Emphasis Category List

As instructed on the previous page, please select one primary emphasis category, to enter into the online submission form. This is required information.

Technical Program Primary Emphasis Selections (select one):

- ☐ Oil and gas exploration and development
- ☐ Seismic acquisition
- ☐ Seismic processing
- ☐ Seismic modeling, imaging, and inversion
- ☐ Seismic interpretation
- ☐ Electrical and electromagnetic methods
- ☐ Potential field methods
- ☐ Borehole geophysics
- ☐ Rock physics
- ☐ Reservoir geophysics and reservoir monitoring
- ☐ Environmental and engineering geophysics
- ☐ Mining geophysics
- ☐ Geochemistry
- ☐ Gas hydrates
- ☐ Risk analysis in E&P
- ☐ Geophysical instrumentation and equipment

## Keyword Table

The following list contains suggested keywords for indexing your abstract by subject. Please choose up to five of the keywords listed and enter them on the Program Information Form.

2D	displacement	mapping	seafloor
3-C	distributed systems	marine	sediment
3D	divergence	media	seismic
4-C	diving wave	incompressibility	sensors
4D	DMO	Mexico	sequence/seismic
acoustic	downhole receivers	Middle East	sequestration
acquisition	downhole sources	migration	shear modulus
Africa	dynamic	mining	shear wave
air gun	earthquake	modeling	sources
airborne survey	economics	monitoring	South America
algorithm	elastic	multiazimuth	spectral
aliasing	electrical/resistivity	multicomponent	spectral
amplitude	electromagnetic	multiparameter	decomposition
anisotropy	engineering	multiples	stacking
Antarctica	entropy	MWD	standards
apparent resistivity	environmental	navigation	statics
archaeology	estimation	near surface	statistical
arrays	Europe	neural	Stoneley wave
artificial intelligence	faults	NMO	stratified
Asia	filtering	noise	stratigraphy
attenuation	finite difference	nonlinear	subsalt
attributes	finite element	North America	surface consistent
Australia	Fourier	nuclear	surface wave
AVO/AVA	fractals	OBC	survey design
azimuth	fractures	oceanography	tectonics
borehole geophysics	geophones	optimization	theory
boundary conditions	geothermal	overthrust	thermal conductivity
bulk modulus	GPR	paleomagnetism	time-lapse
carbonate	GPS	parallel	tomography
case history	gravimeter	passive	transform
Central America	gravity	permafrost	trap
chronostratigraphy	groundwater	permeability	traveltime
coal	Gulf of Mexico	phase	tube wave
coefficients	head waves	pore pressure	turning ray
coherency	heat flow	porosity	two-dimensional
coherent	high-velocity layer	poststack	unconventional
common angle	horizontal wells	prestack	vector processing
common conversion	hydrates	processing	velocity
point	hydrology	production	vibroseis
common midpoint	illumination	programming	visualization
common offset	imaging	radial	volcanics
common receiver	impedance	radiation	VSP
common shot	induced polarization	radiometrics	water table
compressional wave	interpolation	Radon	wave equation
conical wave	interpretation	random	wave propagation
continuation	invasion	ray tracing	wavelet
conversion	inversion	reciprocity	workstation
converted wave	K-L transform	reflection	
correlation	land	reflectivity	
crosswell	least squares	refraction	
crustal structure	linear	remote sensing	
datuming	lithology	reservoir	
deconvolution	log analysis	characterization	
deepwater	logging	resistivity	
depth	magnetic	resistivity log	
development and	susceptibility	resolution	
production	magnetics	rock physics	
diffraction	magnetization	salt dome	
dip	magnetometer	sampling	
dispersion	magnetotelluric	scattering	

## Submission Checklist

### Did you remember to:

- ☐ Read the instructions in this kit before submitting your abstract
- ☐ Select a primary emphasis category
- ☐ Select five keywords
- ☐ Select a presentation style
- ☐ Enter information for primary author, primary contact and speaker
- ☐ Enter a VALID E-MAIL ADDRESS FOR PRIMARY CONTACT
- ☐ Complete shipping label section as you would if you were addressing an envelope to yourself
- ☐ Prepare the reference list separate from the abstract
- ☐ Embed fonts in expanded abstract

Don't forget, if you have problems during submission, do NOT submit the entire form again, simply contact the Technical Program Coordinator at the SEG Business Office by e-mail at [techprog@seg.org](mailto:techprog@seg.org), or by telephone +1.918.497.5500

## CPS/SEG Beijing 2009 International Geophysical Conference & Exposition

### Abstract Information Form

You may submit abstracts online at <http://abstracts.seg.org> or via postal mail.

Society of Exploration Geophysicists  
*The international society of applied geophysics*

**Submitting Online?** You may use this form to assist in gathering all information that will be required during the online submission process. The online submission system will open on 3 December 2008 and close 14 January 2009 at 5 p.m. CST.

**Submitting by Postal Mail?** To be eligible for the 2009 CPS/SEG Beijing 2009 Conference, the original abstract and this completed form must be received in the SEG Business Office by 14 January 2009. Please send them to:

Yonghe Sun  
Technical Program Co-Chair  
CPS/SEG Beijing 2009  
Geophysical Conf & Expo

**Mailing Address:**

PO Box 702740  
Tulsa, OK 74170-2740

**Shipping Address:**

8801 S. Yale #500  
Tulsa, OK 74137

### Expanded Abstracts Transfer of Copyright

For and in consideration of the potential publication of the expanded abstract ("the Work") submitted, I, the submitter of the Work, as Author or for and on behalf of all authors and/or owners of copyright in the Work ("Authors"), hereby agree to transfer, assign, and convey all right, title, interest, and copyright in the Work and the right to publish the Work in online (including wirelessly conveyed), removable media, and/or printed form to the Society of Exploration Geophysicists ("SEG") and the Chinese Petroleum Society ("CPS"), effective if and when the Work is accepted for presentation at the CPS/SEG Beijing 2009 International Geophysical Conference and Exposition and related publication, subject only to limitations expressed in this Transfer of Copyright. I warrant and represent that I am empowered and authorized to represent Authors with respect to this Transfer of Copyright if this group includes others besides me. Authors warrant that they are empowered to convey the publication right described above to SEG and CPS and that the Work does not infringe any copyright or invade any right of privacy or publicity. Authors further warrant that they have secured permission for the use of all materials from a copyrighted source and all illustrations and photographs used in the Work. Authors agree to indemnify, defend, and hold SEG and CPS, its directors, officers, employees, and agents harmless against any claims to the contrary. Authors understand and agree that SEG and CPS may, at any time, republish in any form the whole Work or parts thereof in any future SEG or CPS publication or compilation, at the discretion of either SEG or CPS. Authors convey to SEG and CPS non-exclusive right to license distribution or republication of all or any portion of the Work to third parties. Authors retain all other rights. Authors confirm that the Work has not been published previously, nor is it under consideration by any other publisher. This Transfer of Copyright shall be binding on Authors' heirs, executors, administrators, and assigns.

#### Authors' royalty-free rights

Authors of Works published in conjunction with the CPS/SEG Beijing 2009 International Geophysical Conference and Exposition shall retain the following royalty-free rights:

1. The right to reproduce the Work, including figures, drawings, tables, and abstracts of the Work, with proper copyright acknowledgment, for any purpose.
2. All proprietary rights in the Work that were not transferred to SEG and CPS in the Transfer of Copyright, including the right to any patentable subject matter that might be contained in the Work.
3. The right to make oral presentation of the same or similar information as that contained in the Work, provided proper acknowledgment is made of SEG and CPS copyright ownership and current publication status.
4. The right to post the Work or portions thereof on Authors' own Web pages or on Web pages or institutional repositories operated by Authors' employers, in either case with acknowledgment of SEG and CPS joint copyright and a link to an official version published online by either SEG or CPS. If Authors' online posting or reproduction of the Work in another form constitutes a modification of the Work as published by SEG and CPS, an accompanying notification stating this is required.

Expanded abstract title \_\_\_\_\_

Authors (name all) \_\_\_\_\_

In witness thereof, I have executed this Transfer of Copyright on this \_\_\_\_ day of \_\_\_\_\_, 20\_\_.

Primary or corresponding Author:

\_\_\_\_\_  
Print or type name Company for which work performed, if applicable

\_\_\_\_\_  
Signature By:  
If authorized to sign for author(s)

**Certification of U.S. government works:** In the event Authors cannot transfer copyright in the Work to SEG because ALL authors were U.S. government employees at the time the Work was prepared, certify this below.  
I so certify:

Primary or corresponding author \_\_\_\_\_  
Print name Signature and date

(PLEASE TYPE)

**Bibliography:** \* **Note About Bibliography** \* *The bibliography should not be included at the end of the expanded abstract and should be prepared separately. You will be able to submit four full pages in your abstract without the bibliography section.*

**Submitting online?** *Please prepare your bibliography separate from your abstract. You will enter each reference in the online form during submission.*

**Submitting by postal mail?** *Please prepare your bibliography separate from your abstract. You should mail your expanded abstract and a separate bibliography document. If you choose to submit your abstract and bibliography through the mail it is HIGHLY encouraged to include an electronic version (USB Flash Drive, CD, etc.) to maintain a quality resolution of your abstract.*

**Official Shipping Label:** *This is the label that will be used to ship the Speaker Kit, including all details in regard to a scheduled presentation, a responsibility and information sheet, and a Speaker Ribbon. Please fill out this section as you would address an envelope to yourself.*
