Distinguished and Honorary Lectures Near You

A diverse assortment of [Distinguished \(DL\)](#) and [Honorary \(HL\)](#) lecturers have been selected for 2011.

Greetings Students,

Happy New Year Students! We trust everyone had a joyous holiday and break!

The SEG University and Student Programs department is happy to announce a new staff member. Please join us in welcoming Callie Lee-Petricek as the new University and Student Programs Advisor. Callie comes to SEG with a very extensive background in working with students and university programs. We are happy to have Callie as part of our team!

The new year has come, which means the USP office is busy planning our 2011 student programs. Be sure to check the calendar for upcoming program application deadlines! Also, SEG Student Chapter officers, don't forget to apply for the [SEG/Chevron Student Leadership program!](#) We have great plans for the San Antonio program. On a side note, we are offering a special article entitled "*Recent advances in seismic imaging: Wide-Azimuth and Anisotropic imaging technology,*" written by Dr. Alfred Liaw, Vice President of SEG's 2010-2011 Executive Committee. Dr. Liaw wrote the article to address a request by an SEG Student Chapter. His commitment to supporting SEG's global breadth of Student Chapters is inspiring!

Students, be sure to check out the [NEW SEG Web site!](#) Stay connected with more news, member features and online collaboration.

Best Regards,
Melissa and Callie

Students are making a difference by supporting their geophysical profession- [Join the Doodlebugger Society today! Visit us online](#) for the
