

OPEN ACCESS ELECTION FORM

The SEG Executive Committee on 6 December 2011 approved an open-access publication option for authors of papers published in SEG journals. If authors pay the applicable fees, their papers can be made freely accessible indefinitely in SEG's online archives. Authors of GEOPHYSICS papers must pay all voluntary and mandatory charges plus a US\$2,500 open-access fee. Authors of papers in THE LEADING EDGE must pay only the US\$2,500 fee. Complete the applicable section below to indicate whether you agree to pay the fees to make your paper freely accessible.
