

2011

Turn the page with SEG eBooks

a new and fast-growing addition to the SEG Digital Library

More than 100 titles due online by Spring 2011

(twice the size of the current collection)

Individuals may purchase whole books or chapters from the SEG eBooks collection at www.segdl.org/ebooks. Whole books are available at list prices, and chapter prices vary.

The SEG eBooks collection is available to institutions via an annual subscription to the entire collection or on a perpetual-access basis to individual titles. As with subscriptions to SEG journals and expanded abstracts, pricing for institutions is on two tiers. For subscription information, visit www.seg.org/publications/subscriptions.

Annual Subscriptions

Tier 1 (academic institutions, public libraries, and not-for-profit research institutions): US\$830

Tier 2 (corporations and government agencies): US\$2,495

- Listed prices are for single locations. Multisite pricing is available on request.
- Subscribing institutions automatically gain access to books added to SEG eBooks during the subscription year.
- Annual subscriptions include access to Robert E. Sheriff's *Encyclopedic Dictionary of Applied Geophysics*, fourth edition, currently available as a separate subscription or as part of a subscription to the SEG Research Collection or the SEG Digital Library.

Perpetual Access

Institutions may purchase perpetual access to each title within SEG eBooks. Tiered pricing applies; pricing for single locations is listed in a table available at www.seg.org/publications/subscriptions. Multisite pricing is available on request.

Features

SEG eBooks shares the SEG Digital Library platform and its features and has other book-specific features.

For Researchers

- Integrated search with journals and expanded abstracts in the SEG Digital Library
- Browsing by title, publication year, series, and topics
- Free access to front matter, index, and references for most books
- Free access to abstracts on a chapter level with chapter-purchase option if not accessed through a subscribing institution
- Chapter-level downloading and printing with watermark identification and copyright info on each page
- No limit on number of chapters downloaded or printed (for personal use only)
- Full text in PDF
- No digital rights management

For Librarians

- Annual subscription option to the entire SEG eBooks collection
- Perpetual-access purchase option for individual books
- IP-based access for researchers at subscribing institutions
- Unlimited sitewide simultaneous use for subscribing institutions
- COUNTER-compliant usage records available
- Chapters have DOIs

Society of Exploration Geophysicists
The international society of applied geophysics

Beyond Books!

Subscribe to the SEG Digital Library for journals and expanded abstracts published by SEG and the Environmental and Engineering Geophysical Society.

The SEG Research Collection includes *GEOPHYSICS*, *THE LEADING EDGE*, SEG Technical Program Expanded Abstracts, and the *Encyclopedic Dictionary of Applied Geophysics*, fourth edition. The EEGS Research Collection includes the *Journal of Environmental and Engineering Geophysics* and the *Symposium on Applications of Geophysics to Engineering and Environmental Problems Proceedings*.
